

# Early Career Researchers

**Amaia Urrizola – Postdoctoral Fellow Oslo University Hospital**

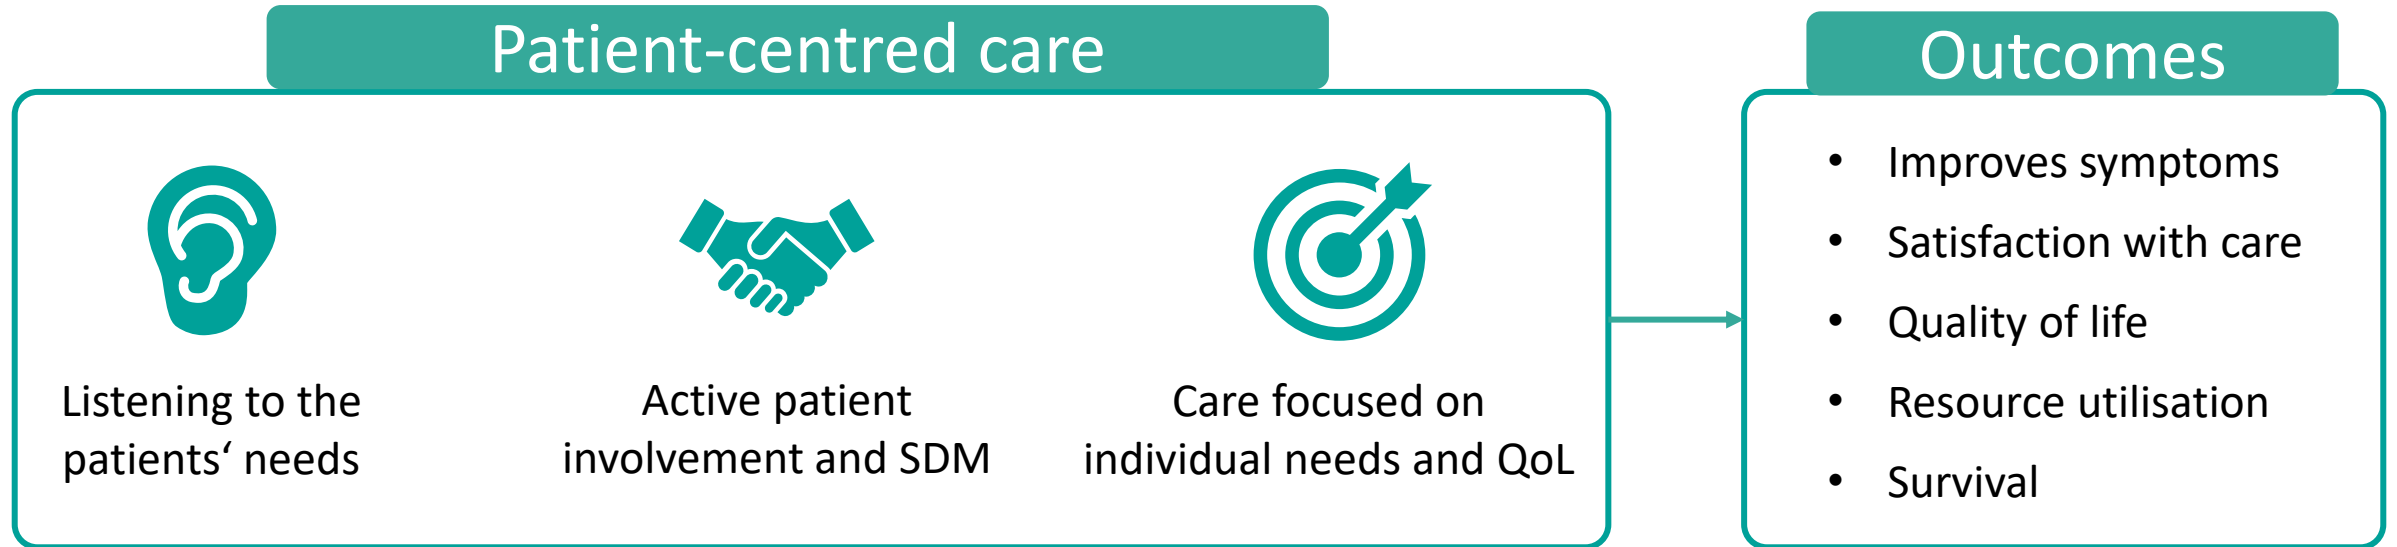

**MyPath**   
The digital solution for patient-centred care

**Supporting recommendations 2 , 4 and 5 of the policy brief document**

- Integrate Palliative Care throughout the cancer care continuum
- Innovate and Implement new knowledge
- Empower patients, carers, and the public to participate in palliative care

# Patient-centred care works...

... but is not systematically implemented in clinical practice

People with cancer often face  
substantial psychological,  
physical, and social problems

resulting from the disease, its  
treatment, or its late effects

That are often undetected and/or untreated
